Dear Sylvia,

What a coincidence between my sending you the Coleman documents with its note on the attached clipping and the Cline appointment! Thanks for sending me the NYT clipping. In this case, exceptionally, the Post had a longer story. If you are interested, I can copy. I saw it nowhere else.

By now Paul should have the Finck testimony. He had Frazier's. He will soon be copying. I found a number of interesting things in Frazier's, one that almost threw me from the chair. I'll tell you when I see you. I plan to use it legally.

I have now been promised other transcripts. Whatever I get (and I have learned not to expect all promises to be kept) will be generally available. If the promise is kept, I should know before I get to NY.

Gary is in Dallas. If he can do half of what is planned, there might be interesting things. I found people there willing to talk to me and I have every confidence he will get a similar greeting.

Recently I made what I expect to be a major new discovery. Unless I can find an innocent explanation, I will have to regard it as a further sign of a conspiracy to whitewash inside the government, in the area in which I have done most of my writing. I may be able to show you color pictures of it soon. It is so simple a thing, yet may be so enormously significant.

My plans for the coming brief trip to NY are uncertain. I'll be pressed for time however long I stay. I expect to stay with a friend I trust. If we cannot get together any other way and I am too tired (as I have remained recently) to make the trip downtown, perhaps conditions will be such we can get together at his place (the location of which I do not know-he has just moved). But there is some of this I think you will want to know.

Best regards,
